CONTACT ME!

Welcome to my Collections & Terms services PDF!

To start, I love to capture memorable moments and create inspiring stories. I'm always ready to meet new adventures & challenges with passion and enthusiasm. Feel free to reach me any time by making a call or dropping an email to say: "Hi!" I look forward to hearing from you!

Every wedding is different. If you've seen my work prior to viewing this document, you'll notice that the films produced from each celebration is as unique in style and presentation as the couples, vendors, & guests that helped to make it all happen.

There is no cookie-cutter formula machine with me. I want to work with you to help your vision of the best day of your life be immortalized in time through a series of sounds and images that will make you want to watch it countless times over.

Let's create some magic!

Please note that because I have different versions floating around among vendors, couples, and attachments, all information here, until a contract is signed, is subject to change based on several factors including, but not limited to, availability, bandwidth, timeline, current queue, priority, date of inquiry and requested date.

Full Ceremony Video

This video covers the processional through the recessional. The typical length of this is for the entirety of the ceremony duration, usually 25-45min, but obviously depends on how long your ceremony duration is. There is a primary stationary camera angle shooting down the aisle (or as close as the venue will allow) for the ceremony. Collections with additional shooters will contain additional cameras/angles. Sound editing and color grading included.

Reception Moments Video

This video covers the significant moments of the reception including, but not limited to, primary speaking moments and significant traditional or cultural dances and events. Length varies depending on how many events your reception has, but is usually around 35-60 minutes long. This is a compilation of the formal introductions, special dances, toasts, and other key moments from the reception. One stationary camera usually records an appropriate angle to capture everything and is delivered in chronological order of occurrence of each event. Featured and Premium Collections may include a Picture-in-Picture visual to show reaction shots or alternate angles simultaneously where appropriate. Sound editing and color grading included.

Wedding Highlight Film [www.bmoyeproductions.com/wedding-films]

A full, cinematic curation of all the moments captured during the wedding day. These videos tend to be about 4-6 minutes in length for the Featured Collection and up to 7-9 minutes for the Premium Collection. It consists of everything from getting ready, pre-ceremony, 1st look, etc. all through the main events to send-off at the end of the reception. It's compiled over a bed of vows/reception toasts from the day, as well as a music track, licensed specifically for the wedding film (which allows for sharing anywhere without the risk of being taken down for copyright).

This is the film that couples usually share with loved ones and on social media sites.

Teaser Video

This is usually a 1-2 minute-long teaser of the day usually to a licensed music track with little to no vocals from the day.

Trailer Video

A shorter 3-4 minute highlight video trailer of wedding celebration clips over licensed music with vocals from the day for the Standard Collection.

Social Specific Shorts

These are 30-60 second wedding clips of either highlights or outtakes designed specifically for sharing on social platforms.

Engagement Video

I love making these and it's a chance to be very creative and candid without the pressures of a timeline. I've done a few different styles and these can range in length from 1 to 3 minutes depending on location, availability, weather etc. Please contact me if you're considering to discuss coverage terms, hours, and delivery.

Rehearsal Video

This video is just like the Reception Moments video where coverage of the speeches or main events of the rehearsal are covered. Please contact me for coverage terms, hours, and delivery for your celebration specifically.

RAW Footage

Strictly out of camera footage with no coloring, audio adjustments, or other enhancements. You can have it as one large video by section of the day or as individual clips. I offer this version because I'm often asked, but I don't recommend for couples viewing experience. It's not aesthetically pleasing until after it's colored properly. See FOMO Edit.

FOMO Edit

This compilation is essentially a sequence of everything that we've captured and colored. Ambient audio is as recorded with voice of family and friends captured and given a light color grade that is aesthetically pleasing and consistent with what the actual celebration looked like. It can be delivered in different smaller videos by time of day (i.e. all clips from bridal prep is one video, everything from cocktail hour is one video, etc.). Everything included in the highlight film, including parts of the clip that may not have made it or clips that didn't make it at all. It can be one long-form video or separate videos.

Landing Page

A new method of delivery that I've been offering and is included automatically with Featured and Premium Collections, this is a web-landing page that showcases all of the deliverables at your disposal. You can download, share specific videos or the entire showcase landing page with loved ones. It's password-protected, has built-in players for the videos, and offers a mobile-based version, too.

Live-stream

A single camera is hooked up to a laptop with the requested service to provide a live-stream of the wedding Ceremony. It is recommended to add-on to a package with at least two shooters for better monitoring of the feed throughout the event.
