We have been filming and photographing weddings for several years and every wedding is an exciting event for us.

We always give everything, try to be invisible for the guests and capture the most beautiful moments of the day.

Our Team

Because we are a team of trained video and photographers, we can accept almost any wedding request.

Joshua

Joshua has produced a 90 minute film that has been streamed more than 5 million times in the US on over 20 platforms. A few years ago he specialized in weddings.

Simon

Simon studied film production at the Los Angeles Film School and has worked for numerous major corporations and top sports clubs.

Tabitha

She has an eye for beautiful details, which has made her so successful in the wedding industry.

Laura

Besides animal and sports photography, Laura is very talented in producing professional wedding photos and finding that special something.

Isabelle

One of Isabelle's greatest talents are not only to see the special moments, but to find the right angle and later the perfect edit.
