DJ JAS's DJ Services are an all-inclusive flat rate of \$3,500 and include the following:

- **Up to 10 hours** of DJ, Sound, and Emcee (M/C) Services (no per-hour charge).
- Pre-event consultations, unlimited emails, phone calls, & **constant communication**.
- Your own customized, personal **Online Music Planning Tools** where you will be able to select music, decide on the order of events, and a multitude of other planning tools, which will ensure your day runs smoothly.
- **Myself (DJ JAS) as the DJ/MC— Unmatched DJ skills, with perfectly executed timing, song selection, and club-level beat-mixing.** Instead of simply fading from one track to another, much like Spotify or any streaming service would, I tastefully blend, mix, and transition from one song to the next in a fun and creative way so there are no abrupt, funny, or awkward transitions between tracks. This ensures the energy remains constant, delivering a musical and entertaining experience that any type of crowd can appreciate! I also pride myself in track selection and the order and timing I decide to play each track. My music programming, impeccable timing, combined with top-notch mixing skills will leave your guests raving about how much fun they had while experiencing the difference in a well-rounded DJ.

- Sleek, modern, and **nearly invisible sound systems** that offer wide, clear, and evenly-distributed sound coverage, all while being unobtrusive and blending into any venue *(no bulky, massive boxes or tripod speaker stands here)*.

- **Multiple speaker systems** and wireless microphones are provided for your entire wedding (*ceremony, cocktail, dinner, dancing*). I also provide **wireless speakers** (no messy cables) allowing even and accurate sound coverage, regardless of the size or shape of the room. This ensures all music, speeches, and announcements are heard clearly by all your guests, no matter where they are. In addition, the wireless speakers can be controlled independently, allowing a different volume from the main DJ speaker system.
- **FULL Room Up-Lighting** amplifies the mood with a classy and elegant look as Up-Lighting transforms the whole room or space, beginning when the door opens, and it even helps set the vibe during cocktails and dinner.
- **Dance-Floor Lighting** adds another element to the music that can take the party to greater heights by creating a better dancing environment.

Thank you for considering JAS Productions for your wedding day. I'm **Justin Stern (DJ JAS), owner and DJ at JAS Productions**. I have worked very hard to build a reputation, for not only being passionate about the art of DJing and knowing what it takes to keep your guests entertained but I'm known for exceeding every client's expectations! I pride myself on providing an unparalleled stellar audio and entertainment **experience, focusing on the true art of DJing**. I take the craft very seriously, and with nearly 20 years of DJing in the event industry, I have fine-tuned my DJ and crowd-reading abilities to deliver an exciting performance, like so few DJs can. **Superb customer service**, attentive communication from the moment you contact me, and attention to detail throughout the planning process and on the day of ensures the vibe you wish to create becomes a reality. I strive to create a pleasant visual appeal that won't distract from your memories or photographs. All these aspects are intertwined and paramount to creating an enjoyable and **stress-free experience**, culminating with an event of a lifetime that will leave your family and friends talking about how your wedding was the most memorable they've been to.

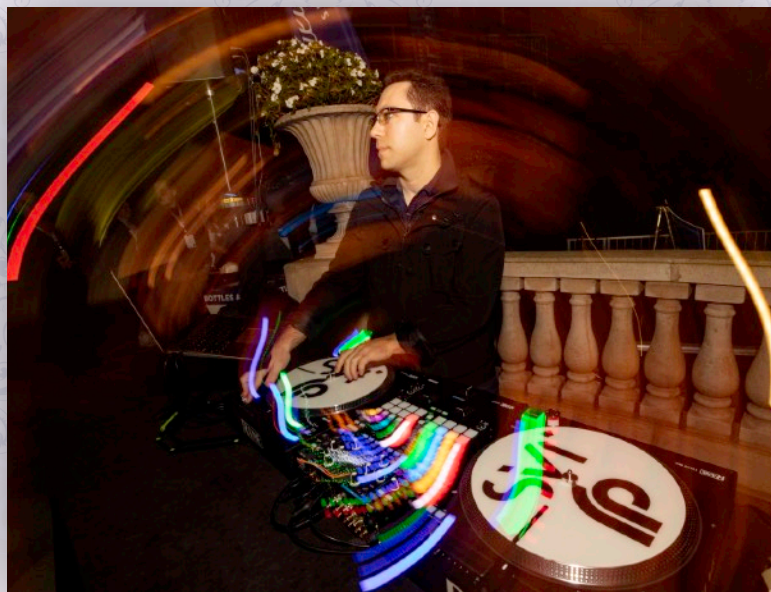

DON'T SETTLE FOR TRADITIONAL PA SOUND

The unique design used in my sound systems provides a pleasing and consistent sound coverage due to its wide dispersion. This means the sound is spread evenly, never harsh or brittle, even at high volume levels. The added benefit to this design is a sleek 3-inch wide column speaker, displaying a modern and elegant look that is unobtrusive, blends into any type of venue, and most importantly, doesn't distract from your wedding. In addition, I provide supplemental, ultra-low profile speakers that are wirelessly transmitted for even better sound coverage, guaranteeing flawless sound throughout your wedding.

The wireless feature means that there will be no visible or messy cables, even for sound transmitted up to 300-feet away. JAS Productions' smart and thoughtful approach to making sure all your guests can hear at the perfect volume is just one example of how I aim to offer the highest level of service for your wedding.

With my smart sound design approach, your guests will be able to talk comfortably at their table, ensuring every single word from speeches or announcements is heard clearly, all while keeping the dance-floor sound lively when it's party time!

FULL ROOM UP-LIGHTING DESIGN INCLUDED

Battery Powered L.E.D. Up-Lighting can completely transform a venue. Imagine being able to match your color palette or decorations, and having the room or outdoor area (trees, building walls, etc.) transformed in an elegant and sophisticated manner. Our Up-Lighting allows this sort of ambiance with meticulously placed lights throughout the room or area that can produce any color, all controlled wirelessly. The wireless capabilities allow full control from the DJ booth, so one can opt to have one color for dinner, have another color when the dancing begins, or adjust the brightness level at any point throughout the evening.

The lights are also **Battery-Powered**, which means NO power cables, wires, or tape that are distracting and look messy. Being battery-powered is a huge advantage over traditional lights because they do NOT rely upon, nor interfere, with the venue's power distribution. You won't have to worry that the power going out or a circuit tripping when the catering turns on the coffee maker. Of course, all the lights are L.E.D. so they do not pose a safety risk, as they never become hot.

Another benefit of Up-Lighting is that it adds depth to the background, both in real life and in pictures. The ambiance created by Up-Lighting can give that "wow effect" and leave a lasting impression. When looking back at your pictures, you won't have that infamous dark or dull background that can be unflattering.

ADDITIONAL ENHANCEMENTS

DOWN-LIGHTING/AREA COLOR-WASH LIGHTING:

Couples may choose to add Down-Lighting and Color-Wash Lighting for outdoor areas to highlight furniture, dessert tables, cake table, signs, dark pathways, parking lots, etc., which can all be elegantly lit with your choice of color. Lights are placed approximately 10 feet in the air and shine down to create either a spot or a wide flood of light in a specific area.

Prices start at \$200, and the number of light stands are determined based on the size and coverage you wish to highlight.

A FEW THINGS TO CONSIDER WHEN CHOOSING JAS PRODUCTIONS:

—*YOU ARE GUARANTEED TO GET REAL DJING*— Being a DJ is so much more than owning a pair of speakers, a laptop, and a big music selection. Rest assured, I am an actual DJ who is hands-on and mixes with a stylized and artistic approach, allowing a better atmosphere suited for dancing! My past experience in the club scene means you should expect smooth, seamless transitions, while always hearing the right song at the absolute perfect time. My 20 years in the event industry gives me the expertise to navigate the unique aspects of any wedding, no matter what may arise. I guarantee that entertainment is one thing you will not need to stress about.

—*ELEGANT DANCE-FLOOR LIGHTING* (included at no extra cost) Good dance-floor lighting adds to the party's atmosphere and encourages people to dance. I provide a vivid and elegant light show (mounted on top of our signature slim speakers), which changes color, intensity, and speed based on the style of music and mood, which I can also fully control. It's easy on the eyes, even if looked at directly, and looks nice in pictures.

—*CONCERT-GRADE-LEVEL WIRELESS MICROPHONES*— I don't take any chances with the microphones on one of the most memorable days of your life. After all, you don't get any re-dos. I am sure you have been to an event where the microphone loses sound or cuts out during the most crucial times, such as the parents' welcome speech. Don't accept that as normal! That simply does not happen when you hire JAS Productions, as I have invested in the best cutting-edge wireless technology.

—*INSURANCE*— I provide professional liability insurance, required by most venues.

—*BACKUP OF ALL EQUIPMENT*— I always keep a duplicate of speakers, mixers, microphones, and the one thing that keeps the party going—MUSIC! Often overlooked by most DJs, I actually have a cloned laptop, where my entire music library, as well as your day's music selections, are perfectly synced, guaranteeing your wedding will continue as planned.
