Wedding Videography

Meet the Videographers

We are Keegan and Brittany, a newly engaged duo! After 8 years of dating we are finally getting married! This team started with just me (Brittany) over 4 years ago and now I am so lucky to bring this extremely talented guy along with me! It is our mission to create timeless and unforgettable videos for you and your spouse to look back on. We truly pour our heart and soul into every single video we create. It is deeply important to us that you have a beautiful way to show future generations just how special the day truly was.
