Hello! ♥

Thank you for considering **EVERMORE WEDDINGS**

Evermore was created for BRIDES! We want to get to know YOU and will provide a personalized experience while handling all the details of your big day. My team and I work with your venue, vendors, and focus on your event vision so you can be present in the moment to make beautiful memories. I am so excited to work with you to bring magic to your wedding and create the wedding of YOUR DREAMS!

Meet your planner

Hi Beautiful Friends!

I'm Stephany, your new third wheel & wedding day BFF!

I am so excited to work with you! When I got married, I was young, eager and was not sure of who I was or how to find my voice in planning my wedding. Now that I have harnessed my inner J LO (I mean, can we be friends if you haven't seen The Wedding Planner?), I make it my mission to ensure my brides are EMPOWERED to create the wedding of THEIR dreams! So what does a wedding planner do? Consider me your wedding day muscles!! From the first consultation to the final send-off, I will be there every step of the way to ensure a flawless and stress-free experience so you can live your DREAM day.

When I am not planning a dream wedding or an awesome event, you can find me at the pool, the beach, the gym or hunting Tic Tock for the best San Diego eats! I love to hike, stay active, and spend time with my wonderful, supportive husband of 15 years, Jason, and our kids- Jake, Zoey, and our fur baby, Oso. We are long-time San Diego residents and love it here!

Why Evermore?

Why should I pay for a planner?

I could list so many reasons, but it comes down to one major thing.

PEACE OF MIND. You have been planning, anticipating, dreaming about this day for so long.

Having a planner takes the stress out of the orchestration of the day. This ensures that all of your hard work does not leave you with a "I wish I had help" or "I missed eating my meal because I was making sure the cake was ready" or "my dad missed this memory because he was making sure the DJ knew what song to play".. I take that away! You can be at ease knowing that all of the details are done... And you are free to enjoy your day.. And your loved ones can too..

Stephany, you seem great, but why should I choose Evermore to plan my wedding? There are so many companies to choose from!

I love this question! It is my passion to make sure you have your perfect day. Your wedding is not just another "event" for me to add to my list of jobs. Your wedding is my wedding. I take care and consideration into all of my weddings like they are my own. I take careful consideration of each and every wedding I choose to book. I ensure that I have the time for each and do not overbook myself or my team. I do this to ensure that each event receives the attention and quality it deserves. I care about my couples. Each wedding is a beautiful opportunity for me to make a small but significant difference in my couples' lives. I am honored to work with all of my wonderful couples.
