You also don't need to pay anything additional to preserve your flowers. The average pricing for wedding flowers by Coco LeFor is \$1000- \$6000. However, we believe every bride should be able to have beautiful flowers on her wedding day and can work with **any** budget! We do not have any minimum pricing. What are sola wood flowers?

Sola wood flowers are made from a plant called *Aeschynomene aspera*. They grow wild in marsh areas in India and SE Asia and are a renewable resource. It is incredibly lightweight and soft to the touch. Every flower is handmade and hand-painted, allowing us to create truly one-of-a-kind flowers. Many people have a hard time telling they are not real, which is the best compliment we can ever receive. Unlike silk flowers these retain a natural look and feel since they are made from organic material, each flower is truly unique.

Advantages

At Coco LeFor we use a combination of sola wood flowers, preserved flowers, dried flowers, and foliage as well as other unique items which truly let us unleash creativity both in color and design.
