Pearls Event Center:

The Pearls Event Center is a newly constructed, modern facility that can be customized into the venue of your dreams. Easily accessible from the freeway and conveniently located near two newly constructed hotels makes this venue great for wedding, receptions, parties as well as corporate meetings. The Pearls Event Center leverages technology to help elevate your event. With hydraulic stage, customizable chandelier colors and heights, and live streaming the possibilities to make your event stand out are endless. Not only will your party guests be able to use the indoor space, but Pearls Event Center also has an intimate outdoor gathering space that guests can leverage for photo ops or to have conversations with one another in a quieter setting. We understand planning an event can be stressful which is why we limit our capacity to one major event per day. This allows us to offer you all day access to the venue to set up and prepare for your event, making it so you don't have to rush before your event begins. Additionally, we have selected our vendors very carefully and have a standing relationship with them all. All the vendors we work with have worked with us on previous events so you can trust that your event is in capable hands.
