

PLANNIE

Average Pricing

Plannie is a network of the top local event planners in every region worldwide!

Since each area has a different market price point for wedding planners and because we have a variety of experience levels, we let each planner determine her/his own price.

The average price varies by city but here are some examples:

- Miami: \$150/hr
- New York City: \$225/hr
- Paris: \$150/hr
- San Francisco: \$175/hr
- Wyoming: \$75/hr

Average Time

Wedding planning is like looking for the scissors in your house so sometimes it's the first drawer (or the first venue you see) or after you've ransacked your house! That said we have some data to support an average amount of time spent on some common tasks:

- Venue search: 2 hours
- Design: 4 hours
- Creating a budget: <1 hour
