

My bridal packages start at \$225 this includes a pre-wedding date makeup trial, should you want one. The breakdown is \$75 for the trial and \$150 due the day of your wedding. I charge \$90 for each additional make-up application (mother of bride, bridesmaids etc.) I offer airbrush, (it's fairly dry here and most people don't need airbrush but I offer it) and false lashes for those that would like them. I assess a travel fee based upon time and mileage, plus parking if applicable. The travel fee is assessed based upon time and mileage. I require a four person minimum for mountain weddings (This can be negotiated for your situation if you reach out to me) and if your timeline or party size requires it, I will hire a second artist at a \$150 fee. If you'd like me to stay on site for touch ups or a look change for the reception party, I charge \$50/hr. I will say that I use high quality makeup and primers, so most brides only need to powder their t-zone and touch up lips and don't need me to stay on site. I use Armani, MAC, NARS, Urban Decay, Charlotte Tilbury and other high-end products because they are designed for photography and wear/lasting ability. Cheers!
