60 second insta-video  
Aerial Drone Videography  
6-7 Min Highlight reel  
Full Wedding Ceremony video  
Extended Raw Footage Edit (includes entire ceremony, toasts and first dances)

## **Additional Information:**

Mics on the groom/officiant/bride for ceremony  
Speeches and toasts are video/audio recorded  
3 cameras recording during ceremony  
2 cameras recording during speeches

I usually get there an hour early free of charge to set up, get shots that I need of the venue, and if you have written vows I like to record them before hand on top of recording them during the ceremony so we have both.

For the ceremony, I have mic'd up the bride with a small device I put in the bodice and have never had a problem. We can always test it out and if you don't like it we don't need it, but it picks up the best audio!
