PIN SPOT LIGHT

PIN SPOT Light battery-powered LED pin spots perfect for lighting center pieces, cakes, and focal points.

Dancing on clouds

(Used for Bride and Grooms 1st Dance)

Dancing on a cloud adds that magical touch and is truly breathtaking! We will create a thick and beautiful cloud covering the dance floor as you enjoy your first dance as newlyweds. This is not just a simple fog machine as foggers are not allowed in most venues due to smoke alarm issues.

The cloud is produced with dry ice and heated water and in a professional machine creating a safe, nontoxic experience. There will be no moisture left on the dance floor since the dry ice goes from solid to gas when activated by the hot water.

Make your night stand out from average weddings!

(Includes dry ice, technician to operate machine, setup and breakdown)

(Used for Bride and Grooms 1st Dance)

Regular Cold Sparkular Machine

(Used for You may kiss your bride, Room's reveal Grand Entrance, Bride and Grooms 1st Dance, cake cutting, exit.)

(Technician on site to operate machines, sparkles covers, set up and breakdown included)
