The best way to see what we do, is to look at our videos from previous weddings:

<https://www.youtube.com/ArborJim> We have filmed hundreds of weddings and our YouTube channel enables you to see all kinds of wedding examples!

We are Award Winning Videographers “Best of Weddings 2022!” Look at our 5 star reviews to see how we’re dedicated to producing wedding videos you will cherish!

The most important element of producing a wedding video is the FILMING of your wedding day. We have many years of experience using professional DSLR and 4K Event HD cameras to be able to film the wedding video you’ll love. We have great wireless microphones and LED lighting for dark situations if needed.

After spending thousands of dollars on a wedding, many couples decide to have a relative or friend film their wedding with whatever camera they have. As a result they get what they paid for. Sometimes, they wait for years to get the edited video. Often, that's because the person is embarrassed to show you the video. They might have made mistakes and they're trying to figure out how to fix it, or they've given up.

Your wedding day is one of the biggest days of your life, and you deserve to have a wedding video that you will cherish for the rest of your life. (Also for your children) Couples appreciate how we gather all the details of their wedding day, and offer many suggestions. People love how beautifully we edit their wedding day film, and how quickly we get it to them.

We edit in both documentary and cinematic styles. As a documentary, segments are edited as they occur to preserve continuity. This style of editing produces a polished documentation of the day as it unfolds. In a cinematic style, your wedding day is captured and edited for dramatic effect and mood.

We value your input and offer creative ideas! Our clients appreciate how we gather all the details they have planned and our creative ideas gathered from years of experience filming weddings. Our clients also appreciate how we ask them to select the music that will be used on the DVD, USB drive and Highlight Video.

Our wireless microphones capture your vows in crystal clear clarity.

We've worked with many Photographers, DJs and Wedding Planners.

We reach out to coordinate with other vendors to capture your beautiful moments in the best way together.

Our DVDs and USB drive are beautifully edited. We craft your film to make everyone look and sound their best!

Our DVD case covers feature full color pictures from your wedding day.

Our Highlights Videos are produced so you can easily share them online with friends and family. We will give you the file too!

Prompt delivery time: DVDs and online video files are delivered within 6 weeks.

We are insured: We have business liability insurance and will promptly email you a certificate of coverage.

We look forward to talking with you! Call (734) 645-7600 or email us at info@excitingproductions.com or arborjim@gmail.com
