My Style

Weddings can be stressful for the bride and groom, even family too! This is why my number one goal on the day of your wedding, aside from capturing amazing quality footage, is to help you relax and enjoy an unforgettable day. I fully understand the responsibility I have as your wedding videographer and it's not one I take lightly! I mean let's face it, we spend most of the day together! I make sure you're both actually having FUN with the filming process, rather than feeling nervous or awkward.

I work closely with the direction of your photographer to get the shots I need so I don't spend too much of your valuable time, this allows you to focus on the things that matter most on your big day! I build a check list of beautiful shots to capture to ensure that you'll be in LOVE with your videos. I truly enjoy what I do and I consider myself lucky to be trusted with making beautiful films that allow you to relive your wedding day.

Types of Videos

Highlight Film

Enjoy the rush of reliving your wedding day through an exciting and emotional highlight film! Your Highlight Film tells the story of your wedding day using artfully selected highlights, music, audio from vows or notes (optional), and beautiful cinematic editing.

Full Length Videos

Shows the major events of your wedding day from start to finish. Rest easy knowing that your First Look, Ceremony and Reception events (wedding party entrances, dances, toasts, etc.) are being covered professionally so you can rewatch them again and again, exactly how they happened, without missing a moment. Events are broken up into individual videos.

Bloopers & Funny Moments

We capture a lot of really memorable moments that never make it into the Highlight Film or Full Length Videos because they just don't fit the vibe. Your Bloopers & Funny Moments Video will add an exciting element to your wedding video experience - sit back and laugh as you watch moments that would otherwise be forgotten!

Videos are delivered electronically.

Reasonable travel fees apply to weddings more than 60 miles from Goshen, MA.
