## CREATIVE WEDDINGS & PHOTO BOOTH SERVICE

Dear Future Bride and Groom,

I'd like to wish you both Congratulations on your Engagement and upcoming wedding. I look forward to working with and developing a relationship with you both, so your images are a true reflection of your personalities. Unlike other large multi-service companies, I only schedule one Wedding per calendar date - Yours! Because I truly love Weddings, I'll cover your day from start to finish, even before the Ceremony, with no worries about Time.

The success of my wedding photography business really amounts to me exceeding the expectations of my clients, who eventually become lifelong friends. Please shop around and compare. In an industry filled with countless complex and confusing digital only options, I'm committed to keeping Photography customer friendly, tangible, non-complicated and most of all affordable! With over 19 years of specialized Wedding experience; we welcome you to compare our **UNBEATABLE LOW PRICE** to any established FT professional (even the weekend photo hobbyists on Facebook) photographer in the area. Besides offering ALL your images on DVD & USB, with us, you also get **200 PHOTOGRAPHS OF YOUR CHOICE**, professionally printed and presented in an album! We still believe professional photographers should deliver actual photographs and albums, not just USBs!

Quality, creativity, simplicity and true value are the basis of my approach to Photography. My staff and I hope you're enjoying your wedding planning and hope that you please take a few minutes to see if we can help you with Photography. Save \$200.00 when you reserve your Wedding Date with a deposit at our Initial Consultation.
