

Elopement Package is \$1,000 and covers two hours, is negotiable please contact for destination elopements.

Base wedding package is \$1,800. #1

You would have me for 4 hours starting for when ever you would want me to come. This usually covers small ceremonies, family photos afterwards, and a small short reception. Expected photos in return would be 200 edited photos

Premium package is \$2,200 #2

You would have me for the majority of the day for 6 hours starting when ever you want me to come.

This would include

- \* preparation photos /bride and groom getting ready
- \* bridal/ groom party session/ family friends
- \* decoration details
- \* ceremony
- \* mini bridal session
- \* Reception / cake cutting

This usually can all be done in a 6 hour time window but if you need me longer I charge 100\$ an hour after the initial 6 hours from my arrival.

You could expect between 250 -300 edited digital photos delivered.

Second shooter add on \$500 up charge

A second shooter would help me not miss any details, cover for me if I have equipment failure, and capture more photos from different angles. (Highly recommend if the groom and bride are getting ready at separate locations.)

Depending on the wedding size you could expect an extra 50 edited images with the second shooter add on.

I do charge travel fees if the location is further than an hour from Rogers Arkansas or out of state. .
