## ALL PACKAGES INCLUDE:

Whether filming an elopement or a wedding, my focus is to capture what's authentic about your special day and more importantly, your love! I believe having your wedding filmed should be a fun, stress-free experience so you can focus solely on enjoying your day and celebrating your love. That's why each event I cover includes the following:

**A Consultation** where I can introduce myself, learn about you as a couple, and discuss any wedding day plans.

**A Professional Shooting Experience** where I'll unobtrusively film your event in vivid detail. For the techies out there, all weddings are recorded in 4K using high-end Sony Full-Frame cameras and professional grade audio equipment.

**Elegant Storytelling** that captures moving, captivating moments with a woman's intuition for emotion and beauty.

**Detailed Instructions** to help you prepare to be filmed and know what to expect on the day.

**Guidance & Direction** that allows you to feel natural and comfortable in front of the camera.

**Two Wedding Videos** that showcase the highlights from the day and your wedding in a more traditional, long-form format.

**Exceptional Customer Service** from start to finish that's personable, responsive, and reliable. I'll always put you first!
