Food & Beverages

Food and Beverage are not included with a rental of this property. This will be the responsibility of the client to secure these services prior to your event.

If you choose a caterer to provide these services, the company will be responsible for acquiring a catering permit and bartender, as well as set up and breakdown of the site. The fully stocked kitchen will support these services.

We are currently partnered with Megabites Catering.

They offer full service catering for any size event!

In this packet you will find our contract and sample menus from Megabites Catering.

If they are not available for your event or just not your style we work with several other catering and bar services in the area. Our on staff event coordinator will guide through the entire process of planning your event.
