

## OUR STUDIO

We are a modern Collective of four artists who truly love photography. We are also the best of friends. Gena and Jesse have been inseparable since Bootylicious was breaking radios, and have been friends with Barb for almost as long. Following each others journey with photography over the years, Barb brought her photog powers to the team in 2014. We all then met Jordyn through her involvement in the local art community and convinced her she was needed to round out our super group!

We all fell in love with the darkroom and art studio in high school, pursuing them further in college. Our love for the arts and desire to build a life creating art for others ultimately led to our career as photographers. And really, what day is more special than a wedding?

We started this business to be storytellers, from engagements and weddings to births and graduations. We pride ourselves on creating insanely beautiful portraits, and capturing the candid moments that will bring you smiles and laughs for years to come.

Cheers,

*Jesse, Gena  
Jordyn & Barbara*
