The Experience

I capture the day and moment as it unfolds as an unobtrusive documentarian. My favorite part is to capture the REAL moments, subtle glances, tears, spontaneous laughter and excitement. I want your images to be unique and for that reason do not try to recreate moments but capture them in real time.

During couples portraits on their wedding day I love working with a space, location and color to produce a beautiful palette for your images. I will give plenty of direction and guide you to best backdrops, lighting so

that we can create striking and creative portraits. I capture the in between moments and coach you through so that you are left with authentic laughter and and sincere interactions that feel true to you as a couple.
