

Pricing - Wedding Photography

Wedding Photography to me is the most fun thing to do because you are capturing a celebration of love. Pure, joyous moments are all that's around you, and what better time to capture these beautiful moments? Moments of love, you and your partner would treasure forever. Capturing these timeless moments throughout the wedding is what I try to achieve for every wedding.

From capturing getting-ready shots to your groovy moves on your dance floor, I try to document all the precious moments on your big day! My style of photography is candid photography with an editorial touch. I believe these should be more than just photos, but a time you wish to re-live, every time you look at these photos. At the end of the day, I strive to tell a beautiful story through my photographs.
